

Voyager Tax Exemption Report

Unlike most universal fleet card programs, Voyager identifies applicable tax exemptions at federal, state and local levels. With proof of your tax exempt certification, Voyager can report and calculate your tax savings on purchases of gasoline, diesel, blended fuels, etc. Even secondary, environmental, county and city taxes are recovered.

- 1 Identifies tax exemptions at federal, state, and local levels.
- 2 Provides breakdown by business unit levels of your choosing (zones, regions, divisions, departments, associates/affiliates).
- 3 Identifies gallons purchased and dollar amounts (if needed) to calculate the tax.
- 4 Shows applicable tax rates in the proper jurisdiction.
