Voyager Fleet Card has gone international!

Voyager Fleet has made an arrangement with Esso Puerto Rico allowing cardholders to purchase fuel at participating Esso sites in Puerto Rico. Voyager customers will be issued an Esso Fleet Card that will be accepted at participating Esso gas stations located on the island. Esso will send transactional data to Voyager and Voyager will combine these transactions into a single, consolidated billing statement for fleets using the Voyager system.

“Voyager is pleased to provide this value added service to our customers,” said Michael Oleniczak, Vice President of Merchant Sales & Service at Voyager. “Our relationship with Esso Puerto Rico is part of our overall strategy to provide solutions for our customers with vehicles outside the continental U.S.”

According to Etienne Fraticelli, Fleet Card Coordinator at Esso Puerto Rico, “We are committed to providing quality petroleum products to all commercial customers. We welcome the opportunity to work with Voyager’s Fleet customers.”

In addition to Esso Puerto Rico, Petrolera Caribe is also participating in this program with card acceptance at its 15 locations in western Puerto Rico.

Over 2,100 Voyager merchants throughout Canada

The Voyager Fleet card is also accepted at more than 2,100 Shell retail locations in Canada. This includes many Shell-affiliated outlets such as Turbo, Pay Less and Beaver. Transactions are automatically converted from liters to gallons and from Canadian currency to U.S. currency on billing statements. Voyager combines these international purchases with U.S. purchases to provide fleet customers with a single billing report.

Moreover, all transaction data is fully integrated with FleetCommander and other Voyager fleet management tools for ease of use.

Finding Shell Canada locations is easy. Go online to www.shell.ca and use the Shell station locator. The site provides detailed information on how to access Shell’s services, including diesel availability, pay-at-the-pump, car washes, service bays and stations with 24-hour service.

Voyager transactions at Shell Canada also qualify for the AirMiles Rewards program. If you are not already enrolled, go to www.aimiles.ca and sign up. It is the easy way to rack up reward miles for gas, groceries, banking, clothes, shoes and more.

New appointments to better serve you

Danny Moos named Senior Vice President and Business Manager for Voyager Fleet and Multi Service Aviation businesses

Robert Abele, Executive Vice President for U.S. Bank, appointed Danny Moos as Senior Vice President and Business Manager for the U.S. Bank Voyager and Multi Service Aviation businesses. Moos will be responsible for the ongoing strategic project development and day-to-day management of these two business units, which are each uniquely positioned in the transportation fueling market.

Moos, 55, joined U.S. Bank in November, 2003, and brings 10 years of fleet fueling experience to this new role. Prior to joining U.S. Bank, Moos was Executive Vice President and Chief Financial Officer at FleetCor Technologies and held similar executive positions with publicly traded companies Phonel Technologies and LDI Corporation.

Improved Navigation, Reporting and Registration for FleetCommander Online

U.S. Bank always looks for ways to improve products and services, and provide clients with the most advanced program solutions and tools. The new enhancements to Voyager® Fleet Commander Online are an excellent example. Users can look forward to:

- Easier navigation
- New and improved reports
- Convenient self-registration options

Easier navigation

Several changes have been made to the Voyager Fleet Commander Online website to make it easier to navigate, find important information and perform tasks. Users will now find navigation links in three locations: left hand navigation bar, page tabs and footer links.

New and improved reports

Reports have been added and enhanced to provide organizations with even more actionable data. These reports include:

- Exception Reports – Cards with High Usage – Users can now create a report that shows cards with high usage and identify cards that are close to their limit.

- Cards with High Gallons – Users can create a report that shows cars fueling with a high number of gallons. The number of gallons (or “units”) can be specified by the user within Select Report Parameters. These parameters can be changed each time a user defines and runs the report.

- Top Dollars by Merchant – This report allows users to identify where their organizations are spending the most. By selecting different report parameters, users can choose to view top dollars across all merchants or merchants within certain categories.

Recent upgrades and design changes simplify your processing while providing greater access and detail.

Create specialized reports, view purchase patterns and identify trends specific to your organization.
**Convenient self-registration options**

Users can now opt in or opt out of specific e-mail communications. The default is to opt in so organizations can be sure users are receiving communications. Users that existed prior to this option are defaulted to opt in to all e-mail communications. It is easy to change the e-mail communication options too. Simply go into User Management and edit the Contact Information section.

If you have suggestions for additional Voyager Fleet Commander Online improvements, please e-mail fleetcommander@usbank.com or call the Technical Support Team at (800) 987-6591.

**The U.S. Bank Financial Supply Chain Conference is just one month away!**

The 2006 U.S. Bank Financial Supply Chain Conference is going to be held January 31 - February 2 in popular Orlando, Florida. Hotel discounts expire January 6 so please visit [www.usbankconference.com](http://www.usbankconference.com), register for the conference and make your reservations soon.

**Important change in terms to your Voyager Card Agreement**

†CHARGES MADE IN FOREIGN CURRENCIES. If you incur a transaction in a foreign currency, U.S. Bank will convert the transaction into U.S. Dollars. U.S. Bank will charge a foreign currency conversion fee of 2.0% for transactions made outside the United States and the Statement will reflect the conversion into U.S. Dollars or transactions that have occurred in a different currency and an applicable exchange rate for conversions.

Changes to U.S. Bank Voyager Fleet Systems Terms and Conditions effective April 1, 2005.

**New Appointments** (continued)

Voyager names Adam Bruttell as National Account Manager

Adam Bruttell has been appointed National Account Manager for Voyager Fleet Systems Inc. Adam will be responsible for building Voyager’s card acceptance network and managing the ongoing process flow with existing vendors that provide maintenance, service, and repairs to Voyager’s fleet customers. Adam can be reached at (832) 486-1172 or via e-mail at adam.bruttell@usbank.com.
Frequently Asked Questions

Q: When is the 2006 U.S. Bank Financial Supply Chain Conference?
A: January 31 through February 2. If you plan on attending, please register at www.usbankconference.com. Make your reservations soon because hotel discounts expire January 6. After that date, regular room rates apply.

Q: How do I register?
A: Go to www.usbankconference.com and use the convenient, secure online registration form. If you have any questions or concerns regarding conference registration, please contact us at conferenceinfo@usbank.com or call (612) 973-1399.

Got a Question?

If you have a question regarding your Voyager Fleet Card program and want to see it featured in the Frequently Asked Questions section, call the Customer Service Center at (800) 987-6591 or fax your question to (800) 987-6592.

Just E-mail It!

We are pleased to accept your account maintenance orders via e-mail. No need to take the time to complete a fax to request cards or make deletions—just provide all the details in an e-mail and send it to one of the following addresses:

voyagercommercial@usbank.com
voyagerstate@usbank.com
voyagerfederal@usbank.com

In an effort to streamline communications, we are actively gathering e-mail addresses from clients. If you have an e-mail address but typically do not receive communications from us, it may be because your e-mail address is not on file. Please take a moment to send a quick e-mail with your contact information, or call (800) 987-6591.
