

U.S. Bank Virtual Pay

Maximize the performance of your payables program

By replacing checks and paper-based processes with virtual credit card accounts, Virtual Pay streamlines payments to provide efficient cost-saving solutions.

- Automate payment and reconciliation
- Reduce processing and operating costs
- Increase control and security
- Gain superior spend visibility and reporting
- Increase working capital and revenue share opportunity

Now more than ever, the healthcare industry is focused on reducing costs and increasing efficiency while delivering high quality patient care. Your payment methods can have a significant impact on your bottom line.

Vision. Flexibility. Control.

Improve your bottom line results

At no cost to you, Virtual Pay provides tools, resources, flexibility and a dedicated Supplier Enablement team to help you reduce payment costs, increase efficiencies and even generate rebate revenue. Not only does this decrease your overhead and staff time, automated reporting provides comprehensive tracking and monitoring of your payments.

Enhance payment security and control

Virtual Pay allows you to pay suppliers electronically with cardless account numbers you can set to a specific supplier, date range and payment amount. Payments are processed only after you approve them, so you have complete control over your accounts payable process.

Rely on our dedicated Supplier Enablement team

We will provide customized solutions to meet your needs, enroll suppliers and provide ongoing support. We can analyze your AP data and recommend strategies to optimize your AP disbursements across all payment types.

Redefining payments for today's business

From commercial cards to program management tools to innovative payment technologies, we offer organizations the solutions they need to cut costs, manage expenses and supplier payments, and operate more efficiently.
