U.S. Bank deposit products

U.S. Bank Smartly® Checking

- Checking account is usually recommended as the first account type to open for expats.
- A U.S. Bank Smartly Checking account allows you to deposit money (such as a paycheck) and draw on that money to make a purchase or pay a bill for example. The account is used for day-to-day transactional purposes. The account offers the ability to draw on funds using a debit card or checks.
- An opening deposit of at least \$25 must be made when opening this account.
- Monthly Maintenance Fee: \$12 (fee waived for all GTS customers)
- Having a checking account provides fee waivers for any of your additional accounts(i.e. Savings, Elite Money Market, CDs).

U.S. Bank Smartly® Savings

- A U.S. Bank savings account that is meant to hold money long term and earns interest. In using this account, it helps to separate long term savings from funds meant for everyday transactions. There is no check writing feature associated with this account. Funds can be accessed via an ATM using a debit or ATM card. Savings accounts are also accessible in mobile and online banking.
- An opening deposit of at least \$25 must be made when opening this account.
- Monthly Maintenance Fee: \$5 (fee waived with the presence of a Bank Smartly Checking® account)

Elite Money Market

- A U.S. Bank savings account that is meant to hold money long term and earns interest, often at higher rates than the Bank Smartly Savings account. This account also offers the ability to draw on funds using a debit card or checks.
- An opening deposit of at least \$100 must be made when opening this account.
- Monthly Maintenance Fee: \$10 (fee waived for GTS customers with a Bank Smartly checking account)

Certification of Deposit (CD)

- A U.S. Bank certificate of deposit offers a higher interest rate than a traditional savings account, but you must leave your money untouched for an agreed upon time (also known as the CD Term Length). If funds are withdrawn from the account earlier than the term length, a fee will be charged. There is no debit card or check writing feature associated with this account.
- This account is only available to Global Transition Solutions customers if they have an existing Bank Smartly Checking, Bank Smartly Savings or Elite Money Market account established first. Opening deposit amounts for the standard CD vary.

Refer to [Your Deposit Account Agreement \(PDF\)](#) and the [Consumer Pricing Information \(PDF\)](#) disclosure for a summary of fees, terms and conditions that apply. Deposit products are offered by U.S. Bank National Association. Member FDIC © 2025..

After arrival to the United States

1. Address change

Please change your Japanese address used on the application to the U.S. address by calling the Japanese Customer Service Unit. The physical address where you live and the mailing address where the statements and notifications are delivered can both be your home address. You may also use your work address as your mailing address.

2. Order checks

Checks can be ordered conveniently by using online banking, the U.S. Bank Mobile App or by calling the Japanese Customer Service Unit. You can change your address during the same phone call.

3. Submit W-9 U.S. tax form

Upon receiving your Social Security Number (SSN), please register it with U.S. Bank by submitting the W-9 tax form. Tax withholding may be assessed on your interest income at the highest income tax rate set forth by the Internal Revenue Service (IRS) if you fail to do so. Online bill pay and person-to-person payments such as Zelle® will only be available after registering your SSN and your U.S. address.

Send the original W-9 tax form to:

Dormant account and escheat

A dormant account is an account that has been inactive. Depending on state law, *Inactive* means there has been no deposit, withdrawal or other communication from you about the account for specific period such as:

- After 11 months for a checking account.
- After 23 months for a saving account.

For security reasons, we may refuse a withdrawal or transfer from an account we classify as inactive if we cannot reach you in a timely fashion to confirm transaction authorization.

Escheat describes the process of transferring an account balance to the state government after an account has been dormant and if our attempt to contact you fails.

Important terminology

Term	Definition
Cashier's checks	<p>A cashier's check is a bank issued check that the written payment amount is guaranteed by the issuing bank. Cashier's checks, instead of personal checks, are often requested by merchants or landlords when the payment amount is large for extra protection. A cashier's check can be purchased at a branch or by calling the Japanese Customer Service Unit.</p> <p>*Cashier's check with a third-party payee are only available at U.S. Bank branches.</p>
Check deposit hold period	<p>The funds for a check that you deposit to your account may not become available immediately. Funds availability means your ability to withdraw funds from your account, whether those withdrawals are to be in cash, by check, automatic payment, or any other method we offer you for access to your account. If deposited funds are not available to you on a given day, you may not withdraw the funds in cash, and we may not use the funds to pay items that you have written or honor other withdrawals you request. With some check deposit, the funds may not be available until the fifth business day after the day of your deposit(s).</p>
Debit card	<p>A debit card is a bank card that lets you easily access money in your checking account. Use it instead of cash or checks for everyday purchases, such as gas and groceries. You can also use it to <u>pay bills</u> and make online purchases. When you use a debit card, the money is taken out of your checking account immediately. You must have enough money in your account to pay for the purchase. There is no credit or bill to be paid later. If you're paying in person, swipe, insert or tap your debit card at checkout. You may be asked for your PIN or signature.</p> <p>For online and phone purchases and transactions, provide your card number, expiration date and CVV code. You may also use your debit card as an ATM card. Just insert your card and enter your PIN.</p>
Joint account	<p>This is an account held with another person and this individual will have access to the account funds. If you wish to add someone to your account, please call the Japanese Customer Service Unit.</p>
Personal checks	<p>A personal check is a payment document directly linked to your checking account. When you write a personal check and hand it as payment, the amount of the check is debited from your linked checking account. You must have enough funds in your checking account to cover the amount. The payee will deposit the check to his/her account or cash the check to receive the payment. With personal checks, the funds are not verified at the time of the payment and there is a risk of default in case of insufficient funds in the payee's account.</p>
Zelle®	<p>Zelle® is a person-to-person payment platform that makes sending, requesting and receiving money fast, safe and easy¹ with those you know and trust – and it's free. Zelle® does not store any of your personal information. Your account details are safe with your bank and not visible while using Zelle®. Zelle® is available in the U.S. only and we require a checking or savings account and a mobile number registered to your mobile and online banking profile for at least three calendar days.</p>

Mobile check deposit

Mobile check deposit

Mobile check deposit is an exclusive feature in the U.S. Bank Mobile App that uses the camera on your phone to deposit checks into your U. S. Bank deposit accounts. You can deposit checks as soon as you receive them skipping the trip to the branch or ATM.

Deposit limit

Deposit limits vary and are based on multiple factors, including your account type, deposit history and relationship with us. You can find your deposit limit:

1. Tap Deposits in the quick action menu.
2. Tap Deposit a check.
3. Choose an account.
4. Tap Deposit limits (under the check amount field).

If your check amount is higher than your mobile deposit limit, you can deposit your check at U.S. Bank Branch or ATM or by mailing it to us with a deposit slip. (Please see the mailing address on Page 7).

To learn more, check out our [Deposit a check](#) tutorial on U.S. Bank Digital Explorer.
