

U.S. Bank Global Travel Payment Program

A flexible, comprehensive
solution for business
travel payments.

**From implementation
to ongoing operations,
you get advantages
at every step.**

Leverage our global reach and local expertise to streamline program management and improve data capture.

You need a travel payment solution that delivers comprehensive and accurate transaction capture, data reporting, simplified management and worldwide support and acceptance — all with a single point of contact you can depend on.

The U.S. Bank Global Travel Payment Program is the answer. It gives you the tools to control travel expenditures and simplify program management, backed by exceptional service for both you and your travelers — around the world.

A powerful partnership: U.S. Bank and Visa®.

U.S. Bank partners with the Visa network, the world's largest acceptance network with merchant and cash locations in more than 200 countries and territories. That gives your employees a convenient way to pay for all their travel expenses, which helps drive adherence to company policies and eliminates the need for costly alternatives such as petty cash and cash advances.

The Visa network provides unparalleled acceptance, multi-currency support for your international travelers. It also enables complete automated capture of transactions and simplifies data reporting. Every transaction is automatically tracked so you can download individual card management and reporting data, as well as consolidated data, through easy-to-use, web-based tools.

Our reporting capabilities also provide an accurate accounting of spending by category and supplier, giving you additional leverage when negotiating terms with vendors. The ultimate result: improved efficiency, reduced costs and streamlined program management.

Exceptional Program Management

Drawing on over 25 years of corporate payment experience and led by your global relationship manager, our dedicated team has the knowledge and resources to ensure your program's ongoing success.

Expert Implementation

U.S. Bank has completed more than 500 global implementations for clients in more than 40 countries.

Efficient Onboarding & Support

Support to ensure cardholders embrace your travel payment policy and continue to adhere to company guidelines.

Global Scale

We deliver outstanding service and extensive capabilities for your cardholders around the world, including local currency cards in 50 countries.

Robust Data Capabilities

Automated transaction capture ensures accurate and complete global data compilation, while web-based tools make it easy to access and download reports.

Personalized Local Service

Your program management team will be supported by local resources with expertise in native languages, currencies, and account management.

Centralized where valuable. Consistent when needed. Flexible as required.

The U.S. Bank Global Travel Payment Program offers country-specific solutions for each local market's cultural and regulatory requirements, including multilingual support, customer service, currency conversion and more. Our worldwide approach to card issuance provides solutions that are consistent where needed, yet flexible enough to adapt to local market conditions.

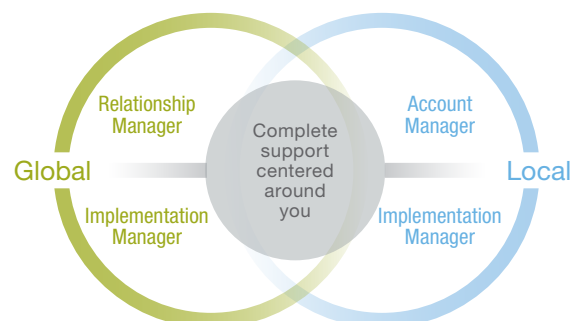

We worked closely with clients in both the commercial and public sectors to design the U.S. Bank Global Travel Payment Program. As a result, it is sure to address your specific needs, including: personal attention from a single, high-level account management contact, global and local customer service in most languages, and coordination of worldwide program implementation.

We have the resources, services and systems to make your global travel payment program run more efficiently. From complete cardholder support services including insurance protection, travel assistance, cash access and emergency assistance, to end-to-end management solutions for complex intercontinental operations, our solutions can be tailored for virtually any business need.

Complete support services let your employees travel with confidence.

- Travel Insurance
- Travel and emergency assistance
- Cash access

Expert personnel and worldwide resources ensure global accountability with a local touch.

Global scope. Local expertise.

U.S. Bank maintains a local presence in North America and Western Europe with locations staffed by experts in local regulations and best practices. Our primary footprint encompasses markets that align closely with the needs of our clients. In markets outside that footprint, we partner with issuers who have intimate knowledge of the local legal, regulatory and cultural environments.

Our partners are carefully selected based on their track record and strengths. Each has an extensive presence within its region and offers proven capabilities including card production, statement delivery and, of course, outstanding customer care. This lets us adapt our solutions to respond to your specific needs around the world.

With local expertise in leading markets and partners around the world, we deliver consistently excellent service anywhere your employees travel. That empowers you to do business with confidence.

A streamlined solution designed around your needs.

Regardless of the size and scope of your company's corporate travel program, we can provide a solution to reduce costs, improve adherence to company policies, manage vendors and improve efficiency.
