ISS Proxy Voting Guidelines Summary

1. Operational Items

**Adjourn Meeting**
Generally vote AGAINST proposals to provide management with the authority to adjourn an annual or special meeting absent compelling reasons to support the proposal.

**Amend Quorum Requirements**
Vote AGAINST proposals to reduce quorum requirements for shareholder meetings below a majority of the shares outstanding unless there are compelling reasons to support the proposal.

**Amend Minor Bylaws**
Vote FOR bylaw or charter changes that are of a housekeeping nature (updates or corrections).

**Change Company Name**
Vote FOR proposals to change the corporate name.

**Change Date, Time, or Location of Annual Meeting**
Vote FOR management proposals to change the date/time/location of the annual meeting unless the proposed change is unreasonable. Vote AGAINST shareholder proposals to change the date/time/location of the annual meeting unless the current scheduling or location is unreasonable.

**Ratifying Auditors**
Vote FOR proposals to ratify auditors, unless any of the following apply:
- An auditor has a financial interest in or association with the company, and is therefore not independent
- Fees for non-audit services are excessive, or
- There is reason to believe that the independent auditor has rendered an opinion which is neither accurate nor indicative of the company’s financial position.

Vote CASE-BY-CASE on shareholder proposals asking companies to prohibit or limit their auditors from engaging in non-audit services. Vote FOR shareholder proposals asking for audit firm rotation, unless the rotation period is so short (less than five years) that it would be unduly burdensome to the company.

**Transact Other Business**
Vote AGAINST proposals to approve other business when it appears as voting item.
2. Board of Directors

**Voting on Director Nominees in Uncontested Elections**

Votes on director nominees should be made on a CASE-BY-CASE basis, examining the following factors: composition of the board and key board committees, attendance at board meetings, corporate governance provisions and takeover activity, long-term company performance relative to a market index, directors’ investment in the company, whether the chairman is also serving as CEO, and whether a retired CEO sits on the board. However, there are some actions by directors that should result in votes being withheld. These instances include directors who:

- Attend less than 75 percent of the board and committee meetings without a valid excuse
- Implement or renew a dead-hand or modified dead-hand poison pill
- Ignore a shareholder proposal that is approved by a majority of the shares outstanding
- Ignore a shareholder proposal that is approved by a majority of the votes cast for two consecutive years
- Failed to act on takeover offers where the majority of the shareholders tendered their shares
- Are inside directors or affiliated outsiders and sit on the audit, compensation, or nominating committees
- Are inside directors or affiliated outsiders and the full board serves as the audit, compensation, or nominating committee or the company does not have one of these committees
- Are audit committee members and the non-audit fees paid to the auditor are excessive.

In addition, directors who enacted egregious corporate governance policies or failed to replace management as appropriate would be subject to recommendations to withhold votes.

**Age Limits**

Vote AGAINST shareholder proposals to impose a mandatory retirement age for outside directors.

**Board Size**

Vote FOR proposals seeking to fix the board size or designate a range for the board size. Vote AGAINST proposals that give management the ability to alter the size of the board outside of a specified range without shareholder approval.

**Classification/Declassification of the Board**

Vote AGAINST proposals to classify the board.
Vote FOR proposals to repeal classified boards and to elect all directors annually.

**Cumulative Voting**

Vote AGAINST proposals to eliminate cumulative voting.
Vote proposals to restore or permit cumulative voting on a CASE-BY-CASE basis relative to the company’s other governance provisions.

**Director and Officer Indemnification and Liability Protection**

Proposals on director and officer indemnification and liability protection should be evaluated on a CASE-BY-CASE basis, using Delaware law as the standard. Vote AGAINST proposals to eliminate entirely directors’ and officers’ liability for monetary damages for violating the duty of care. Vote AGAINST indemnification proposals that would expand coverage beyond just legal expenses to acts, such as negligence, that are more serious violations of fiduciary obligation than mere carelessness. Vote FOR only those proposals providing such expanded coverage in cases when a director’s or officer’s legal defense was unsuccessful if both of the following apply:
• The director was found to have acted in good faith and in a manner that he reasonably believed was in the best interests of the company, and
• Only if the director’s legal expenses would be covered.

Establish/Amend Nominee Qualifications
Vote CASE-BY-CASE on proposals that establish or amend director qualifications.
Votes should be based on how reasonable the criteria are and to what degree they may preclude dissident nominees from joining the board.
Vote AGAINST shareholder proposals requiring two candidates per board seat.

Filling Vacancies/Removal of Directors
Vote AGAINST proposals that provide that directors may be removed only for cause.
Vote FOR proposals to restore shareholder ability to remove directors with or without cause.
Vote AGAINST proposals that provide that only continuing directors may elect replacements to fill board vacancies.
Vote FOR proposals that permit shareholders to elect directors to fill board vacancies.

Independent Chairman (Separate Chairman/CEO)
Vote on a CASE-BY-CASE basis shareholder proposals requiring that the positions of chairman and CEO be held separately. Because some companies have governance structures in place that counterbalance a combined position, the following factors should be taken into account in determining whether the proposal warrants support:
• Designated lead director appointed from the ranks of the independent board members with clearly delineated duties
• Majority of independent directors on board
• All-independent key committees
• Committee chairpersons nominated by the independent directors
• CEO performance reviewed annually by a committee of outside directors
• Established governance guidelines
• Company performance.

Majority of Independent Directors/Establishment of Committees
Vote FOR shareholder proposals asking that a majority or more of directors be independent unless the board composition already meets the proposed threshold by ISS’s definition of independence.
Vote FOR shareholder proposals asking that board audit, compensation, and/or nominating committees be composed exclusively of independent directors if they currently do not meet that standard.

Stock Ownership Requirements
Generally vote AGAINST shareholder proposals that mandate a minimum amount of stock that directors must own in order to qualify as a director or to remain on the board. While ISS favors stock ownership on the part of directors, the company should determine the appropriate ownership requirement.

Term Limits
Vote AGAINST shareholder proposals to limit the tenure of outside directors.
3. Proxy Contests

Voting for Director Nominees in Contested Elections

Votes in a contested election of directors must be evaluated on a CASE-BY-CASE basis, considering the following factors:

- Long-term financial performance of the target company relative to its industry; management’s track record
- Background to the proxy contest
- Qualifications of director nominees (both slates)
- Evaluation of what each side is offering shareholders as well as the likelihood that the proposed objectives and goals can be met; and stock ownership positions.

Reimbursing Proxy Solicitation Expenses

Voting to reimburse proxy solicitation expenses should be analyzed on a CASE-BY-CASE basis. In cases where ISS recommends in favor of the dissidents, we also recommend voting for reimbursing proxy solicitation expenses.

Confidential Voting

Vote FOR shareholder proposals requesting that corporations adopt confidential voting, use independent vote tabulators and use independent inspectors of election, as long as the proposal includes a provision for proxy contests as follows: In the case of a contested election, management should be permitted to request that the dissident group honor its confidential voting policy. If the dissidents agree, the policy remains in place. If the dissidents will not agree, the confidential voting policy is waived. Vote FOR management proposals to adopt confidential voting.

4. Antitakeover Defenses and Voting Related Issues

In instances when the joint effect of the conditioned items is not in shareholders’ best interests, vote against the proposals. If the combined effect is positive, support such proposals.
**Conversion of Securities**

Votes on proposals regarding conversion of securities are determined on a CASE-BY-CASE basis. When evaluating these proposals the investor should review the dilution to existing shareholders, the conversion price relative to market value, financial issues, control issues, termination penalties, and conflicts of interest.

- Changes in the capital structure.

**Value Maximization Proposals**
Vote CASE-BY-CASE on shareholder proposals seeking to maximize shareholder value by hiring a financial advisor to explore strategic alternatives, selling the company or liquidating the company and distributing the proceeds to shareholders. These proposals should be evaluated based on the following factors: prolonged poor performance with no turnaround in sight, signs of entrenched board and management, strategic plan in place for improving value, likelihood of receiving reasonable value in a sale or dissolution, and whether company is actively exploring its strategic options, including retaining a financial advisor.
6. State of Incorporation

Control Share Acquisition Provisions

Vote FOR proposals to opt out of control share cashout statutes.

Reincorporation Proposals
Proposals to change a company’s state of incorporation should be evaluated on a CASE-BY-CASE basis, giving consideration to both financial and corporate governance concerns, including the reasons for reincorporating, a comparison of the governance provisions, and a comparison of the jurisdictional laws. Vote FOR reincorporation when the economic factors outweigh any neutral or negative governance changes.

Adjustments to Par Value of Common Stock
Vote FOR management proposals to reduce the par value of common stock.

Common Stock Authorization
Votes on proposals to increase the number of shares of common stock authorized for issuance are determined on a CASE-BY-CASE basis using a model developed by ISS. Vote AGAINST proposals at companies with dual-class capital structures to increase the number of authorized shares of the class of stock that has superior voting rights. Vote FOR proposals to approve increases beyond the allowable increase when a company’s shares are in danger of being delisted or if a company’s ability to continue to operate as a going concern is uncertain.

Dual-class Stock
Vote AGAINST proposals to create a new class of common stock with superior voting rights. Vote FOR proposals to create a new class of nonvoting or subvoting common stock if:
• It is intended for financing purposes with minimal or no dilution to current shareholders
• It is not designed to preserve the voting power of an insider or significant shareholder

Issue Stock for Use with Rights Plan
Vote AGAINST proposals that increase authorized common stock for the explicit purpose of implementing a shareholder rights plan (poison pill).

Review on a CASE-BY-CASE basis shareholder proposals that seek preemptive rights. In evaluating proposals on preemptive rights, consider the size of a company, the characteristics of its shareholder base, and the liquidity of the stock.

Preferred Stock
Vote AGAINST proposals authorizing the creation of new classes of preferred stock with unspecified voting, conversion, dividend distribution, and other rights (“blank check” preferred stock). Vote FOR proposals to create “declawed” blank check preferred stock (stock that cannot be used as a takeover defense). Vote FOR proposals to authorize preferred stock in cases where the company specifies the voting, dividend, conversion, and other rights of such stock and the terms of the preferred stock appear reasonable. Vote AGAINST proposals to increase the number of blank check preferred stock authorized for issuance when no shares have been issued or reserved for a specific purpose. Vote CASE-BY-CASE on proposals to increase the number of blank check preferred shares after analyzing the number of preferred shares available for issue given a company’s industry and performance in terms of shareholder returns.

Recapitalization
Votes CASE-BY-CASE on recapitalizations (reclassifications of securities), taking into account the following: more simplified capital structure, enhanced liquidity, fairness of conversion terms, impact on voting power and dividends, reasons for the recategorization, conflicts of interest, and other alternatives considered.
Reverse Stock Splits
Vote FOR management proposals to implement a reverse stock split when the number of authorized shares will be proportionately reduced. Vote FOR management proposals to implement a reverse stock split to avoid delisting. Votes on proposals to implement a reverse stock split that do not proportionately reduce the number of shares authorized for issue should be determined on a CASE-BY-CASE basis using a model developed by ISS.

Share Repurchase Programs
Vote FOR management proposals to institute open-market share repurchase plans in which all shareholders may participate on equal terms.

Stock Distributions: Splits and Dividends
Vote FOR management proposals to increase the common share authorization for a stock split or share dividend, provided that the increase in authorized shares would not result in an excessive number of shares available for issuance as determined using a model developed by ISS.

Tracking Stock
Votes on the creation of tracking stock are determined on a CASE-BY-CASE basis, weighing the strategic value of the transaction against such factors as: adverse governance changes, excessive increases in authorized capital stock, unfair method of distribution, diminution of voting rights, adverse conversion features, negative impact on stock option plans, and other alternatives such as spinoff.

8. Executive and Director Compensation
Votes with respect to compensation plans should be determined on a CASE-BY-CASE basis. Our methodology for reviewing compensation plans primarily focuses on the transfer of shareholder wealth (the dollar cost of pay plans to shareholders instead of simply focusing on voting power dilution). Using the expanded compensation data disclosed under the SEC’s rules, ISS will value every award type. ISS will include in its analyses an estimated dollar cost for the proposed plan and all continuing plans. This cost, dilution to shareholders’ equity, will also be expressed as a percentage figure for the transfer of shareholder wealth, and will be considered long with dilution to voting power. Once ISS determines the estimated cost of the plan, we compare it to a company-specific dilution cap.

Our model determines a company-specific allowable pool of shareholder wealth that may be transferred from the company to executives, adjusted for:
- Long-term corporate performance (on an absolute basis and relative to a standard industry peer group and an appropriate market index),
- Cash compensation, and
- Categorization of the company as emerging, growth, or mature. These adjustments are pegged to market capitalization. ISS will continue to examine other features of proposed pay plans such as administration, payment terms, plan duration, and whether the administering committee is permitted to reprice underwater stock options without shareholder approval.

Director Compensation
Votes on compensation plans for directors are determined on a CASE-BY-CASE basis, using a proprietary, quantitative model developed by ISS.
Stock Plans in Lieu of Cash
Votes for plans which provide participants with the option of taking all or a portion of their cash compensation in the form of stock are determined on a CASE-BY-CASE basis. Vote FOR plans which provide a dollar-for-dollar cash for stock exchange. Votes for plans which do not provide a dollar-for-dollar cash for stock exchange should be determined on a CASE-BY-CASE basis using a proprietary, quantitative model developed by ISS.

Director Retirement Plans
Vote AGAINST retirement plans for nonemployee directors.
Vote FOR shareholder proposals to eliminate retirement plans for nonemployee directors.

Management Proposals Seeking Approval to Reprice Options
Votes on management proposals seeking approval to reprice options are evaluated on a CASE-BY-CASE basis giving consideration to the following:

- Exercise price
- Participation.

Vote FOR employee stock purchase plans where all of the following apply:

- Purchase price is at least 85 percent of fair market value
- Offering period is 27 months or less, and
- Potential voting power dilution (VPD) is ten percent or less. Vote AGAINST employee stock purchase plans where any of the following apply:
  - Purchase price is less than 85 percent of fair market value, or
  - Offering period is greater than 27 months, or
  - VPD is greater than ten percent

Incentive Bonus Plans and Tax Deductibility Proposals (OBRA-Related Compensation Proposals)
Vote FOR proposals that simply amend shareholder-approved compensation plans to include administrative features or place a cap on the annual grants any one participant may receive to comply with the provisions of Section 162(m). Vote FOR proposals to add performance goals to existing compensation plans to comply with the provisions of Section 162(m) unless they are clearly inappropriate. Votes to amend existing plans to increase shares reserved and to qualify for favorable tax treatment under the provisions of Section 162(m) should be considered on a CASE-BY-CASE basis using a proprietary, quantitative model developed by ISS. Generally vote FOR cash or cash and stock bonus plans that are submitted to shareholders for the purpose of exempting compensation from taxes under the provisions of Section 162(m) if no increase in shares is requested.

Employee Stock Ownership Plans (ESOPs)
Vote FOR proposals to implement an ESOP or increase authorized shares for existing ESOPs, unless the number of shares allocated to the ESOP is excessive (more than five percent of outstanding shares.)
**401(k) Employee Benefit Plans**
Vote FOR proposals to implement a 401(k) savings plan for employees.

**Shareholder Proposals Regarding Executive and Director Pay**
Generally, vote FOR shareholder proposals seeking additional disclosure of executive and director pay information, provided the information requested is relevant to shareholders’ needs, would not put the company at a competitive disadvantage relative to its industry, and is not unduly burdensome to the company. Vote AGAINST shareholder proposals seeking to set absolute levels on compensation or otherwise dictate the amount or form of compensation. Vote AGAINST shareholder proposals requiring director fees be paid in stock only. Vote FOR shareholder proposals to put option repricings to a shareholder vote. **Performance-Based Stock Options**
Vote CASE-BY-CASE on shareholder proposals advocating the use of performance-based stock options (indexed, premium-priced, and performance-vested options), taking into account:
- Whether the proposal mandates that all awards be performance-based
- Whether the proposal extends beyond executive awards to those of lower-ranking employees
- Whether the company’s stock-based compensation plans meet ISS’s SVT criteria and do not violate our repricing guidelines

**Golden and Tin Parachutes**
Vote FOR shareholder proposals to require golden and tin parachutes (executive severance agreements) to be submitted for shareholder ratification, unless the proposal requires shareholder approval prior to entering into employment contracts. Vote on a CASE-BY-CASE basis on proposals to ratify or cancel golden or tin parachutes. An acceptable parachute should include the following:
- The parachute should be less attractive than an ongoing employment opportunity with the firm
- The triggering mechanism should be beyond the control of management
- The amount should not exceed three times base salary plus guaranteed benefits

**9. Social and Environmental Issues**

**CONSUMER ISSUES AND PUBLIC SAFETY**

**Animal Rights**
Vote CASE-BY-CASE on proposals to phase out the use of animals in product testing, taking into account:
- The nature of the product and the degree that animal testing is necessary or federally mandated (such as medical products),
- The availability and feasibility of alternatives to animal testing to ensure product safety, and
- The degree that competitors are using animal-free testing.
Generally vote FOR proposals seeking a report on the company’s animal welfare standards unless:

- The company has already published a set of animal welfare standards and monitors compliance
- The company’s standards are comparable to or better than those of peer firms, and
- There are no serious controversies surrounding the company’s treatment of animals

**Drug Pricing**

Vote CASE-BY-CASE on proposals asking the company to implement price restraints on pharmaceutical products, taking into account:

- Whether the proposal focuses on a specific drug and region
- Whether the economic benefits of providing subsidized drugs (e.g., public goodwill) outweigh the costs in terms of reduced profits, lower R&D spending, and harm to competitiveness
- The extent that reduced prices can be offset through the company’s marketing budget without affecting R&D spending
- Whether the company already limits price increases of its products
- Whether the company already contributes life-saving pharmaceuticals to the needy and Third World countries
- The extent that peer companies implement price restraints

**Genetically Modified Foods**

Vote CASE-BY-CASE on proposals to label genetically modified (GMO) ingredients voluntarily in the company’s products, or alternatively to provide interim labeling and eventually eliminate GMOs, taking into account:

- The costs and feasibility of labeling and/or phasing out
- The nature of the company’s business and the proportion of it affected by the proposal
- The proportion of company sales in markets requiring labeling or GMO-free products
- The extent that peer companies label or have eliminated GMOs
- Competitive benefits, such as expected increases in consumer demand for the company’s products
- The risks of misleading consumers without federally mandated, standardized labeling
- Alternatives to labeling employed by the company.

Vote FOR proposals asking for a report on the feasibility of labeling products containing GMOs.

Vote AGAINST proposals to completely phase out GMOs from the company’s products. Such resolutions presuppose that there are proven health risks to GMOs—an issue better left to federal regulators—which outweigh the economic benefits derived from biotechnology.

Vote CASE-BY-CASE on reports outlining the steps necessary to eliminate GMOs from the company’s products, taking into account:

- The relevance of the proposal in terms of the company’s business and the proportion of it affected by the resolution
- The extent that peer companies have eliminated GMOs
- The extent that the report would clarify whether it is viable for the company to eliminate GMOs from its products
- Whether the proposal is limited to a feasibility study or additionally seeks an action plan and timeframe actually to phase out GMOs
- The percentage of revenue derived from international operations, particularly in Europe, where GMOs are more regulated.
Vote AGAINST proposals seeking a report on the health and environmental effects of GMOs and the company’s strategy for phasing out GMOs in the event they become illegal in the United States. Studies of this sort are better undertaken by regulators and the scientific community. If made illegal in the United States, genetically modified crops would automatically be recalled and phased out.

**Handguns**

Generally vote AGAINST requests for reports on a company’s policies aimed at curtailing gun violence in the United States unless the report is confined to product safety information. Criminal misuse of firearms is beyond company control and instead falls within the purview of law enforcement agencies.

**Predatory Lending**

Vote CASE-BY-CASE on requests for reports on the company’s procedures for preventing predatory lending, including the establishment of a board committee for oversight, taking into account:

- Whether the company has adequately disclosed mechanisms in place to prevent abusive lending practices
- Whether the company has adequately disclosed the financial risks of its subprime business
- Whether the company has been subject to violations of lending laws or serious lending controversies
- Peer companies’ policies to prevent abusive lending practices.

**Tobacco**

Most tobacco-related proposals should be evaluated on a CASE-BY-CASE basis, taking into account the following factors:

- The risk of any health-related liabilities.

**Advertising to youth:**
- Whether the company complies with federal, state, and local laws on the marketing of tobacco or if it has been fined for violations
- Whether the company has gone as far as peers in restricting advertising
- Whether the company entered into the Master Settlement Agreement, which restricts marketing of tobacco to youth
- Whether restrictions on marketing to youth extend to foreign countries

**Cease production of tobacco-related products or avoid selling products to tobacco companies:**
- The percentage of the company’s business affected
- The economic loss of eliminating the business versus any potential tobacco-related liabilities.

**Spinoff tobacco-related businesses:**
- The percentage of the company’s business affected
- The feasibility of a spinoff
- Potential future liabilities related to the company’s tobacco business.

**Stronger product warnings:**

Vote AGAINST proposals seeking stronger product warnings. Such decisions are better left to public health authorities.
Investment in tobacco stocks:
Vote AGAINST proposals prohibiting investment in tobacco equities. Such decisions are better left to portfolio managers.

ENVIRONMENT AND ENERGY

Arctic National Wildlife Refuge
Vote CASE-BY-CASE on reports outlining potential environmental damage from drilling in the Arctic National Wildlife Refuge (ANWR), taking into account:
- Whether there are publicly available environmental impact reports;
- Whether the company has a poor environmental track record, such as violations of federal and state regulations or accidental spills; and
- The current status of legislation regarding drilling in ANWR.

CERES Principles
Vote CASE-BY-CASE on proposals to adopt the CERES Principles, taking into account:
- The company’s current environmental disclosure beyond legal requirements, including environmental health and safety (EHS) audits and reports that may duplicate CERES
- The company’s environmental performance record, including violations of federal and state regulations, level of toxic emissions, and accidental spills
- Environmentally conscious practices of peer companies, including endorsement of CERES
- Costs of membership and implementation.

Environmental Reports
Generally vote FOR requests for reports disclosing the company’s environmental policies unless it already has well-documented environmental management systems that are available to the public.

Global Warming
Generally vote FOR reports on the level of greenhouse gas emissions from the company’s operations and products, unless the report is duplicative of the company’s current environmental disclosure and reporting or is not integral to the company’s line of business. However, additional reporting may be warranted if:
- The company’s level of disclosure lags that of its competitors, or
- The company has a poor environmental track record, such as violations of federal and state regulations.

Recycling
Vote CASE-BY-CASE on proposals to adopt a comprehensive recycling strategy, taking into account:
- The nature of the company’s business and the percentage affected
- The extent that peer companies are recycling
- The timetable prescribed by the proposal
- The costs and methods of implementation
- Whether the company has a poor environmental track record, such as violations of federal and state regulations.
**Renewable Energy**

Vote CASE-BY-CASE on proposals to invest in renewable energy sources, taking into account:

- The nature of the company’s business and the percentage affected
- The extent that peer companies are switching from fossil fuels to cleaner sources
- The timetable and specific action prescribed by the proposal
- The costs of implementation
- The company’s initiatives to address climate change

Generally vote FOR requests for reports on the feasibility of developing renewable energy sources, unless the report is duplicative of the company’s current environmental disclosure and reporting or is not integral to the company’s line of business.

**GENERAL CORPORATE ISSUES Link Executive Compensation to Social Performance**

Vote CASE-BY-CASE on proposals to review ways of linking executive compensation to social factors, such as corporate downsizings, customer or employee satisfaction, community involvement, human rights, environmental performance, predatory lending, and executive/employee pay disparities. Such resolutions should be evaluated in the context of:

- The relevance of the issue to be linked to pay
- The degree that social performance is already included in the company’s pay structure and disclosed
- The degree that social performance is used by peer companies in setting pay
- Violations or complaints filed against the company relating to the particular social performance measure
- Artificial limits sought by the proposal, such as freezing or capping executive pay
- Independence of the compensation committee
- Current company pay levels.

**Charitable/Political Contributions**

Generally vote AGAINST proposals asking the company to affirm political nonpartisanship in the workplace so long as:

- The company is in compliance with laws governing corporate political activities, and
- The company has procedures in place to ensure that employee contributions to company-sponsored political action committees (PACs) are strictly voluntary and not coercive.

Vote AGAINST proposals to report or publish in newspapers the company’s political contributions. Federal and state laws restrict the amount of corporate contributions and include reporting requirements.

Vote AGAINST proposals disallowing the company from making political contributions. Businesses are affected by legislation at the federal, state, and local level and barring contributions can put the company at a competitive disadvantage.

Vote AGAINST proposals restricting the company from making charitable contributions. Charitable contributions are generally useful for assisting worthwhile causes and for creating goodwill in the community. In the absence of bad faith, self-dealing, or gross negligence, management should determine which contributions are in the best interests of the company.
Vote AGAINST proposals asking for a list of company executives, directors, consultants, legal counsels, lobbyists, or investment bankers that have prior government service and whether such service had a bearing on the business of the company.
